## Determination of Patent Term Adjustment under 35 U.S.C. 154 (b) (application filed on or after May 29, 2000)

The patent term adjustment to date is 118 days. If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the term adjustment will be 118 days.

If a continued prosecution application (CPA) was filed in the above-identified application, the filing date that determines patent term adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) system. (<http://pair.uspto.gov>)

Any questions regarding the patent term extension or adjustment determination should be directed to the Office of Patent Legal Administration at (703)305-1383.

## Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-18 are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter: The prior art fails to disclose or suggest a method of teaching reading comprising all of the steps of claims 1, 17 and 18, in particular sequentially numbering segments of written text and identifying words and phrases to a student in accordance with the student's reading ability. While Lin reads of the numbering of segments of text, the device of Lin is used with a multimedia device and has completely different purpose as the present claimed invention. Noting in the prior art suggests modification of the method disclosed by Lin to meet the method steps of claims 1, 17 and 18.
3. With respect to claims 11-16, the arguments presented with the Amendment of October 28, 2003 are persuasive. In particular the arguments concerning the sequential numbering of the words are well taken. While documents comprising a plurality of numbered items are commonly, if not usually, sequentially numbered, there would be no motivation or suggestion to provide such numbering with the device of Lin. Lin is directed to a multimedia device for extracting additional audio or video information corresponding to a particular word or sentence. As applicant points out, multiple instances of the same word in a given document would presumably have the same number, as identical information would generally be provided for each occurrence of the word.

Art Unit: 3712

Claim 11 as amended clearly indicates that a unique number is provided for each word, for the purpose of assisting a user in finding a given word during a reading exercise. The arguments concerning the intended use of the device being different from that in Lin are not particularly persuasive, because the use or intended purpose of an apparatus is generally deemed to have little if any patentable weight under MPEP 2114. However, the fact that the claimed apparatus is intended for teaching reading, rather than providing multimedia information of the type disclosed by Lin, provides a clear function to the sequential numbering as claimed in claim 11. Because this sequential numbering represents a structural feature of the invention which is neither explicitly disclosed by Lin nor obvious in view of Lin, claim 11 is allowed.
